

***DRAFT* POLICY GUIDANCE FRAMEWORK**

Feedback template

The Policy Guidance Framework has developed as one of the main outputs of the within the Financing Policies for Inclusive Education Systems project.

It builds on the findings and key messages of the project and aims to provide a practical tool for policy makers to consider their financing policies and identify areas of strength as well as areas for development.

The Policy Guidance Framework is currently a *draft document* and the goal of the Validation meeting is to get your feedback and inputs on the draft so it can be re-worked and developed as needed in order to meet policy makers' needs more closely.

This document is a simple template for your feedback on the Policy Guidance Framework. To structure your feedback, we have identified some key questions we would like your input on. Please make notes linked to these questions that you would like the FPIES team to take into account when preparing the final version of the Policy Guidance Framework.

Please complete this feedback template before and during the meeting.

Your notes will be collected in at the end of the working sessions on 7th June.

1. Is the Preamble and section on Financing Policy Elements clear? Please provide any suggestions you have for improving these sections:

2. Are the policy goals and objectives presented in the Policy Guidance Framework clear? Please provide any suggestions for improving the section:

3. Is the Self-Review Tool clear and easy to use? Please provide any suggestions for improving this tool:

4. Please note if there is anything else to add or delete:

5. Please indicate if you any ideas on how you might use the Policy Guidance Framework in your country:
